

September Newsletter

Building Work

During the next few weeks building work will begin on an extension to the practice's facilities at the far end of the car park. This includes new kennels and cattery, operating facilities and a new lambing room. The builders will keep disruption to a minimum and we apologise for any inconvenience caused.

Lampeter Show

We would like to thank all those who visited our stand at the Show and had a go at the lucky dip. We raised over £130 for Ty Hafan Childrens Hospice.

Bluetongue Vaccine Boosters

It is now 12 months since BTV vaccine became available. Remember to keep cattle fully protected they require a single booster injection once a year. If you miss the booster injection you will need to restart the course with two injections.

Pet Smile Month

September is Pet Smile Month. As part of the national initiative we are offering free dental check ups during our Nurse Clinics.

If you would like to make an appointment please call in or telephone the Office during office hours.

Enzovax & Toxovax

Remember it is now time to order your supplies of Enzovax & Toxovax. Both should be given to ewe lambs at least 4 weeks before they go to the ram.

As some of you may be aware there are some supply issues this year, so please place your orders soon to avoid any disappointment. Please contact the Office to place your order or if you would like to discuss this as part of your on going Flock Health Plan.

Ubro Yellow (*formally Leo Yellow*)

Ubro Yellow is currently out of stock across the UK. We don't know when we will next have this in stock.

If you wish to discuss Mastitis treatment and prevention on your farm please telephone the Office and ask to talk to a Vet.
